Business Pillars

BUSINESS PILLARS

From foundational compute to intelligent agents — a complete AI value chain.

OVERVIEW

Three Pillars, One Integrated Stack

From Infrastructure to Intelligent Agents

01

AI-Infra

Multi-Cloud Compute Infrastructure

- GPU / CPU compute resources
- Dedicated clusters · Hybrid cloud
- Six major cloud ecosystems aggregated

02

AI-Gateway

Global LLM API Gateway

- International & domestic models
- Unified API · Smart routing
- Shengsheng / Wenwen / Pandas platforms

03

AI-Agent

Enterprise-Grade Agent Platform

- SOP / Skill / Custom
- Multi-agent collaboration
- Six core use-case scenarios

Pillar 02: AI-Gateway — Key Advantages

Why GOLDLY AI Gateway Wins

Global Resources

Seven hubs plus a multi-cloud ecosystem give low-latency global access to leading international and domestic models.

Compliance

Offshore entities, multi-jurisdiction data compliance and multi-currency settlement keep cross-border calls secure and compliant.

Operations

99.9% SLA, multi-region active-active and automatic failover keep mission-critical calls reliable.

R&D

Smart routing, cost optimization and full observability continuously deepen our gateway engineering.

Pillar 02: AI-Gateway — Traction & Recognition

Pillar 02: AI-Gateway — Roadmap

Building the Global AI Operating System

2026

Connect 90% of the world's leading models

Become the most comprehensive unified gateway to global LLMs.

2027

Build global Agent infrastructure

Infrastructure for the agent era — global agent invocation and collaboration.

Future

Build a global AI Operating System

Become the OS connecting enterprises to global AI.

The AI Gateway is becoming the core infrastructure connecting enterprises to global AI.

STRENGTHS & STRATEGY

Four moats: global resources, international compliance, R&D and operational excellence.

CORE STRENGTHS

Core Strengths

Four Pillars of Competitive Advantage

Global Resource Integration

Global Resources

Integrating seven operating hubs and six cloud ecosystems to deliver truly global compute and model resources.

International Compliance

Compliance & Security

A multi-jurisdiction data-compliance framework, multi-currency settlement and enterprise-grade security governance.

Leading R&D

Technical Excellence

Deep expertise in LLM engineering and multi-agent systems — engineering depth as our moat.

Operational Excellence

Standardized delivery and 24/7 support ensure a smooth rollout for clients worldwide.
